Customer Reviews

I found this book very helpful. It covers all the basics you need to know if you want to make money trading options. What is even better, the book covers some great strategies, which are explained

wonderfully. If you are new to options trading, this book just might be a wise investment for you. The straightforward information covers the basics of types of options, and the best way to make money using this system. Great advice for the beginning investor.

For many years, day trading has been earning a reputation as an incredible and effective way to earn money quickly. This book will serve as your first source of literature into the world of day trading and will give you the necessary tools to begin experimenting with the market. Over the course of this book, you will learn about what it takes to be a day trader, how to approach each trade, how to review your work, and what steps you will need to take next in order to launch your day trading career. Since this business revolves around money, you will learn how to handle yours, deciding upon how much to invest and how to attain your profit target goals.

Options trading involve risks and are not suitable for everyone, can be speculative in nature and carry substantial risk of loss especially if you don't know what you're doing. Because of it, this book will introduce you to the fundamentals of options and will take you to both the basic and more complex topics of options trading. This is a nice book with lots of details on how to buying, selling, managing and predicting options movement that must be read especially to those Option Trading lovers.

I think everyone wants to do many more work through which work they can earn as many as they need but the reason is they need guideline and proper counseling. So exactly this is the book can make beginners expert one in options trading. The author has well defined strategies and tips for the convenience so that everyone can easily comprehend. After implementing this the advantage is this that no risk of loss but the increasing profit. Really an amazing book to which i give preference.

One of my course is concerned with the financial one. I have to learn how to trade and gain profit in the real case. So, this book is quite useful and suitable with my need. I really love this book. It starts from the basic concepts, which contain many formula. There are many examples and samples of showing the trends. It also provides tips to understand when I can guess that i can end the deal. As a result, I conduct one of the real one on the market. I earn a little bit but it is quite good to keep on the right track.

One of the things that you often hear about investing is to only invest in what you know. Well, for all

this time, I have never traded in options because I have never been able to get my head around them. Now that I have read this book, options trading finally clicked with me. Not only do I know get the power and opportunities that options trading provides, but I also now understand. This book is a great guide and I recommend it for those looking to explore the world of option trading.

Setting options in time will not be of much help if it isn't accompanied by serious knowledge and understanding of the market. This is a great and very informative book written on this topic. You will learn different techniques and strategies from this guide that will be very helpful to you. Nice read!!

The book is very comprehensive, but not overbearing. It's easily understood and the strategies are easy to follow. Great book for those looking to get into the trading game! Lots of very good information, reads like a textbook which is a positive thing for me. This book gave me a better understanding of what options are.
