Essential Elements Of Career Counseling: Processes And Techniques (3rd Edition) (The Merrill Counseling Series)

Synopsis

Note: This is the bound book only and does not include access to MyCounselingLab®. To order MyCounselingLab® packaged with the bound book, use ISBN 0134297369 . This accessible look at how to do career counseling • clearly defines the profession and the competencies counselors need to pursue as part of their training. Straightforward and accessible, Essential Elements of Career Counseling focuses on the practice of career counseling, examined through the basic techniques and resources useful in supporting the theories of career choice and development. The use of the Internet as a career counseling tool is emphasized; emerging issues such as Web-based counseling are explored; and case studies illustrate authentic counseling strategies and techniques in action. This edition features a new look at such areas as using group counseling methods in job searches and using the resume to inspire the development of career stories, providing a highly practical look at the practice of career counseling today. Also available with MyCounselingLab® This title is also available with MyCounselingLab™ an online homework, tutorial, and assessment program designed to work with the text to engage students and improve results. Within its structured environment, students see key concepts demonstrated through video clips, practice what they learn, test their understanding, and receive feedback to guide their learning and ensure they master key learning outcomes. Customer Reviews

The book is thin and the cover is just thick enough to wear it will be bent too easily. the pages are of high quality and it does not give me an icky glossy feeling when i turn the pages. The book explains plenty about career counseling tools and goals and each chapter is rather short and not a dry read at all. There are several sample dialogues between client and counselor to help readers understand how each counseling theory would be applied. :)

This text is easy to read and straight-forward. I don't rate it as a five star as it does not keep my attention, but then again the topic isn't the career that I plan on entering specifically.

This book was decent for class purposes. I have come across other career counseling books that were so dry. This book was actually bearable to get through and explained the information well.

I really like this book. it is thin and not boring. i ordered it for a career counseling class we never used it but i still have it because the information is great

This is a useful resource for the course I am studying, although I have not been able to connect to the support resource site as yet which is disappointing.

This is an absolutely necessary book for me as a career consultant. Good tips, easy to read. I can use it in my everyday job as a handbook.
