Customer Reviews

This is a book EVERYONE must read. It offers refreshing insight into dealing with or interacting with people who might come across as difficult. The author has shared so many examples that one

might relate too. I pretty much had a slide show playing in my mind! I enjoyed reading about the different kinds of personalities that exist, and the skills the author offers in doing our best to work with them. I love the focus on kindness and positivity as a practice.

Great read with wonderful ideas for handling uncomfortable situations with people who are obnoxious. We all have those moments when we feel like engaging in a some sort of controversy with someone because they have abrasive personality. This book is very insightful on how to not get into altercations that will only cause more difficulties. An excellent read! Well worth the little that it costs.

This was a great and interesting book. I loved every page of this book , it was easy to relate with and the information was short sweet and to the point . This book not only allows a person to understand the different personality types there are in a workplace but also this book was a guide for dealing with people and their personality types in which we can encounter on a day to day basis , I also enjoyed the strategies that one can use to effectively deal with each personality type. Great book!

If you have ever been in a situation where you don't know how to deal with someone who is being difficult? A co worker, an employer someone in school, etc. This book provides strategies to cope with it and better understand all kinds of personality types. I found this book informative, simple and one that is most useful for everyone. After this book you will no longer feel discouraged about having to face difficult people. I recommend it without a doubt!

This is a great to-the-point kind of book. It tells you exactly what you need to know from the different types of difficult people, down to how to deal with difficult people who are at the same level as you are to those with more authority (i.e. managers), to how to develop your skill set so you're a master dealing with each type of difficult person. If you're looking for a book that gives you the answers you need in the most concise way than get this book!

An excellent read for those first starting out in the workplace to troubleshoot the potential "people problems" that can arise. This book clearly highlights the character types in the workplace and how to deal correctly with them " to make everybody's life better. It's a little short, but then, who has the time to read a long-winded ramble with lots of filler these days. This cuts right to the

chase and lists everything you need to know in a short, easy read.

. Anyone who works or lives with anyone can find help in this book on how to deal with the folks in your life. Dealing with difficult people can be a problem especially in the workplace but this book will give you real world tips and advice on what to do and how to deal with these people resulting in a much happier workplace,

I have experience in dealing with all kinds of personalities in the workplace. Understanding those different types of personalities is key to having a positive working relationship with those around you. You don't have to like them, but you do at least have to understand what category they fit into. This book has just great advice on how to effectively deal with these personality types in a professional way and improve your communication skills to be able to talk to anyone. I definitely recommend this book.
