Customer Reviews

Funny Aliens is really different from the common Kindle coloring book that is full of stock images. This book has a collection of designs that I have never seen before. They do seem to be more about cats and dogs than aliens though. The variety of detail levels is good. There should be something to suit everyone one in this book. The only thing I take issue with is few images that have way too much black for my taste. The print link works well and allows you to print or save.

While the designs are fun and original, there's too much black in almost every one for me to print for coloring. Use markers and they will smear the black across designs, getting black on the marker tips. Not a happy colorist. Disclosure: I received this coloring book for free in exchange for my honest and unbiased review. When we buy coloring books in stores we can look inside to see if we like the designs and check for any designs we already have. WHY Not Here On ??

I really like this coloring book full of really unique designs. These are not the usual designs you see over and over again. They are funny and not terribly intricate. I think I like it because it is very different from what we normally see. My only criticism is a common one for me. There are too many designs with lots of heavy, dark lines and blackened in areas. This ruins the book for me but I will still enjoy coloring it! Prepare to use a lot of ink if bought as a Kindle download. As a print book it would be fine. It looks like it will be a lot of fun to color! I rely heavily on product reviews when deciding to purchase an item from a particular manufacturer or company.

This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The

pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.

This book doesn't say it is a kids coloring book, but it would really appeal to kids. Especially upper grade school and older kids. The pictures are humorous, and cute. Kids would have a ball coloring these and so would some adults. "Disclosure: I received this product for free in exchange for my honest and unbiased review"

Cats, dogs, fish, space... and aliens. 36 cute designs, great for artists of any age, from young to older artists. Enjoy yourself and relax while you colour these cute designs. They'll put a smile on your face. Disclosure: I received this product for free in exchange for my honest and unbiased review.

I am so proud that I have this adorable book which is packed with the cutest and funniest pictures to look at and color. These are made with such a wonderful sense of humor and every picture makes me both smile and laugh. What a fun book to own and use.

Really cute pictures. If you decide to get this one, it would probably be more worthwhile to get the physical copy, as there is an abundance of ink usage. Disclosure: I received this product for free in exchange for my honest and unbiased review.
