# Origin, Perception And Correction Of Color: An Essential Guide To Color Theory For Artists And Photographers

## Synopsis

This is the fantasy Color Theory training I never had. Every day we see color all around us. We mostly take it for granted. But as photographers and designers it is essential to capture and control color. Our job becomes that much less difficult when we understand what color is, and where it comes from. If you feel as if you're stumbling blindly, let this book serve as your jumping off point toward a complete understanding and mastery of Color Theory, Management and Correction. And if you have an itchy trigger finger, jump right to the Appendix. My tutorial, "One Minute Color Correction," will have you up and running in no time flat.

## Book Information

File Size: 5934 KB

Print Length: 118 pages

Simultaneous Device Usage: Unlimited

Publisher: Fromberg Media (October 25, 2014)

Publication Date: October 25, 2014

Sold by:Â Digital Services LLC

Language: English

ASIN: B00OWSLDU2

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled
