How do you give a zero star review? I have the author as my teacher and she is clearly useless giving arbitrary grades without reason. But that isn't the point of this review - I agree with a previous reviewer who stated:"The book is nothing more than copy and paste from other sources. You have a citation every paragraph. It seems to me the author has no clue about teaching, or the subject."I'm not sure that this author even knows anything about the subject but knows how to steal other people's comments legally through citations. Very poorly written with incomplete thoughts and ideas. The writing is disjointed and doesn't have a cohesive presentation of ideas.

I would give less than one star. Unfortunately, is not possible. To make matters worse, I have the author as my teacher. The book is nothing more than copy and paste from other sources. You have a citation every paragraph. It seems to me the author has no clue about teaching, or the subject. This author/teacher is a joke. I have 3.9 GPA in my MBA program if that tells you something.

Very useful book. I used it in the class a lot and at work

It is a good book for international trade. The digital version is an excellent alternative.

Exactly what i purchased and in good condition!! Would definitely recommend.
