Customer Reviews

The 4th edition (1975) is a classic that contains information that is still relevant today. We used this book for many years to teach medical students about medical parasitology. I find myself still referring to it. Many advances have been made since the last publication, so interested readers should refer to a more recent text such as Parasitic Diseases by Despommier, Gwadz, Hotez and Knirsch.

deseo saber si tienen el libro de parasitologia clinica del autor brown en espaol...de ser asi porfavor me escribe que estoy muy interesada en comprarlo, gracias.

Good read

I liked your book when i read it, and i would like to translate it into the arabic language for teaching purposes, the copy i have is edited on 1985. please, if you accept that i can translate your book, send me a letter of your approval.thanks in advance,nasser abbas
